**Dear customers,**

the DeutschlandTicket is one of the great achievements of regional public transport in the last few decades. This ticket, valid across Germany, makes it easier and more cost-efficient to flexibly travel by bus and train. The Verkehrsverbund Rhein-Ruhr and Germany as a whole have many regional transport customers using the DeutschlandTicket for their day-to-day mobility.

We have revised our offering in order to further facilitate your access to regional public transport while contributing to climate protection. The DeutschlandTicket, the eezy.nrw Ticket, and the much slimmer VRR network tariff make sure that you can find the ticket to match for any travel, irrespective of its cause.

eezy.nrw in the VRR is a fair and comfortable alternative for spontaneous trips across North Rhine-Westphalia. It can be booked simply and digitally via the VRR app or the app of the respective transport company. The costs for the trip result from a fixed basic fee and the linear kilometres travelled.

Our goal is rendering use of bus and train even simpler for you in future. We look forward to you going this step into a sustainable future together with us.

Do you have any questions about our current ticket range? Our employees will gladly help you.

**Have a safe journey by bus and train!**

## DeutschlandTicket Schule

### **What is the DeutschlandTicket Schule?**

The DeutschlandTicket Schule is a discounted bus and train ticket (chip card) for pupils. Pupils can use the ticket to travel all day, to school and in their free time alike. The ticket is valid throughout Germany and around the clock.

### **How do I get the DeutschlandTicket Schule and what does it cost?**

The requirement for a DeutschlandTicket Schule is that the school authority of your school has contractually chosen the DeutschlandTicket Schule. If the route to the nearest school is longer than 3.5 km, you may be entitled to travel expense coverage. For primary school children, the required distance is only 2 km. For upper secondary schools, the limit is 5 km. Please contact your school's secretary directly to verify eligibility and receive the corresponding application. Eligible persons will only pay the legally required shares (EUR 7.00 or EUR 14.00 per child). If you do not have any claim to transport expense coverage, you can purchase a DeutschlandTicket Schule for your child as a self-payer at EUR 43.00 in a subscription that can be terminated every month.

### **Can I continue using a SchokoTicket if the school authority of my school has chosen the DeutschlandTicket Schule?**

If the school authority chooses the DeutschlandTicket Schule, pupils of the respective school can only use the DeutschlandTicket Schule anymore. This applies to eligible people as well as to self-payers. The ticket switch enlarges the area of application without any financial disadvantages.

### **Can I purchase a DeutschlandTicket even if my school has still chosen the SchokoTicket?**

You can terminate your current SchokoTicket with your transport company and purchase a regular DeutschlandTicket for EUR 63.00 there.

## Key facts

### Timetable app

Do you want to travel by bus and train and do you need information and services around your trip? The timetable apps of the VRR and transport companies for iOS and Android will keep your personal travel companion at hand at all times. Simply enter your start and destination and have the app show you the local public transport connections to match. Any interferences in operation during a trip will be reported to your smartphone. The VRR and transport company apps can be found in the respective app stores.

### Pet transport

Pets may be taken along free of charge on regional public transport and SPNV both in the VRR and anywhere in NRW. Safety and order of the operation as well as passengers travelling with the vehicle must not be impaired by taking along pets.

## KombiTicket

The KombiTicket combines admission to an event with a ticket for public transport in the VRR. For example, if you are attending any trade fairs, sports events, visiting a theme park, or doing similar activities, your ticket may already include a bus and train ticket as well.

Whether this is actually the case can be told at a glance since each ticket states in writing whether it can be used as a KombiTicket. A barcode may have to be requested for this.

The tickets are valid on the day of the event. They entitle to travelling to the event location and back from it. Your KombiTicket is available through the corresponding organisers or their pre-sales offices, and from any sales offices with a KombiTicket logo.

The KombiTickets entitle the holder to travel in 2<sup>nd</sup> class on any buses, trams, light rail vehicles, city trains, the Wuppertal suspension railway, and the surcharge-free trains of the railway companies for the respective areas of validity.

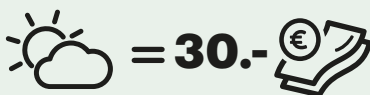

## Mobility guarantee

We want to get you to your destination quickly at all times. If we fail at doing so at any point, e.g., due to traffic jams, parking offenders, or vehicle and operating equipment interferences, you will profit from our mobility guarantee. It applies to all tickets under the VRR and NRW rates. It applies if the local public transport you are trying to use is cancelled or departs from the departure stop with a delay of at least 20 minutes as compared to the timetable.

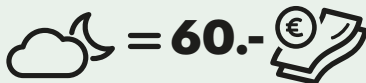

You must transfer to the alternative means of transport within 60 minutes. If you travel by IC/EC or ICE instead, or if you are taking a taxi or a sharing service (e.g., car, bike, e-trekker sharing, on-demand transport), we will reimburse part of the costs that arise for this.

As a Ticket2000 customer, you will receive up to **EUR 60.00** for the whole day. Users of any other tickets will receive up to **EUR 30.00** from 5 a.m. to 8 p.m. and up to **EUR 60.00** from 8 p.m. to 5 a.m.

**5 a.m. to 8 p.m.**

**8 p.m. to 5 a.m.**

The only thing you need to do for this is submit an application to your transport company within 14 calendar days after the delay. For the corresponding form, go to your KundenCenter or download it from **[www.vrr.de](http://www.vrr.de)**.
